The background of the slide features a collage of fire-related images. At the top, a firefighter's helmet with the number '19' is visible. Below it, a fire truck is shown with 'RESCUE' and 'ENGINE 1' markings. In the lower right, there is a scene of firefighters in yellow gear working near a large fire. The text is overlaid on this background.

Job 23303

July 9, 2010

Your new Contender chassis is in production. This past week the cab passed thru the cab assembly area where interior components were added. The chassis frame rails were bolted together and moved to the assembly line where the engine & transmission were set in place. Early next week the cab will be set onto the frame assembly. Then it will go thru the testing process before it is shipped to the Contender plant.
