# TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS

## GENERAL INFORMATION

### PURPOSE

The purpose of this course announcement is to provide interested students of firefighting with important information about course offerings and the forms necessary for making application. All training will be conducted by, and at the facilities of, the Atlantic County Fire Training Center. Specific information on the content of each course offering is found in the pages that follow.

### PREREQUISITES

Firefighting courses are structured sequentially. For this reason, prerequisites have been established for many courses so that each student will have the necessary background to gain the most from each student area. Since many courses build upon the knowledge gained in the prerequisite courses, an unprepared student will not only fail to understand some of the material, they will also slow the progress of the entire class. Please note that prerequisites are indicated in the course description section for each Academy course. Make sure all personnel are qualified for that class.

If a person has taken a course that is a prerequisite for an Academy course from an institution other than the Atlantic County Fire Academy (ACFA), he or she must supply documentation of this at the time of application. Copies of certificates for these courses must accompany the course application in order to receive equivalency credit for that course.

### APPLICATION PROCEDURE

Personnel desiring to enroll into any course must do so through their respective Chief or Training Officer. All applications must be submitted at least 10 days prior to the commencement of the Class. No walk-in will be accepted for any class that is not designated open enrollment. **A check or voucher must accompany each registration form.** Blank registration forms are in the back of this training announcement.

**A separate registration form for Firefighter 1 is required along with a completed Medical Form.** Both forms can be found in the back of this announcement.

# **TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

## **CONFIRMATION**

No course confirmation will be sent to enrolled students. If the course is canceled or rescheduled for any reason, the contact person listed on the registration form will be contacted. It is the responsibility of the student and sending department to see that either the student or a replacement shows up for the scheduled class. No refunds will be given for registered students who fail to show up.

## **CANCELLATION POLICY**

If you have to cancel a person for some reason, you may cancel up to 7 days before the class. If you do not notify the Academy by that time, and the person or qualified replacement does not show up on the first day of the class, the tuition will **not** be refunded.

## **REFUND POLICY**

A refund of the course fee will be made for a student cancellation up to 7 days prior to the start of the course. Refunds cannot be made once the class starts including dropouts. If a course is canceled by the Academy for lack of student enrollment, all fees will be refunded.

## **SUBSTITUTIONS**

Should an accepted student discover that he/she would be unable to attend a course, a substitution may be possible. For a substitution request to be granted, the substitute must meet all of the prerequisites for the course. The substitute must attend the 1st class and notify the instructor of the substitution. Failure to provide a substitute will forfeit tuition paid unless the Academy is notified within 7 days prior to the start of the course.

## **WALK IN REGISTRATION**

Students wishing to register the first day of class may do so provided the class is not full. If you walk in and the class has already met its enrollment capacity, you will not be accepted. Walk-in registration will be on a first in basis with payment due prior to start of the class.

Unless otherwise noted, only open classes that do not have a maximum enrollment will be allowed to increase.

# **TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

## **PHYSICAL CONDITION OF STUDENTS**

No student shall be admitted to class with any physical and/or other condition that would prevent them from safely participating in class activities. No student shall be given credit for any unit of instruction in which he or she did not or could not actively participate. Students who do not actively participate in any portion of the class will not be given a certificate of completion for the class and will not be eligible to return for other courses for which the completed course is a prerequisite.

All students participating in a class requiring the use of a SCBA will be required to sign a SCBA Face Fit Certification Form found in the back of the booklet certifying that they are physical fit to take the class.

## **FIRST SESSION REGISTRATION AND ATTENDANCE**

Registration will be conducted at the first class meeting of each course. For several courses, attendance at the first class is mandatory, for other classes, the first class may be missed, but only with advance permission from the Academy. Students who are not in attendance for mandatory first class meeting or without prior approval to miss the first class will be dropped from the course. There will be no refunds for those who fail to attend the first session. Substitutions are allowed; refer to the section on "Substitutions".

Students are responsible to sign the roster for each lesson to receive credit for that lesson. Make-up students are responsible for signing the roster with their original class number, in order to receive credit. Please inform the Instructor that you are making up a class from a previous course.

Students shall not leave the Academy prior to class dismissal without permission from the Instructor in charge of the class.

## **MAKE-UP POLICY**

Any students who have missed lessons/modules in Academy courses have one (1) year from the date the lesson was missed to make up the lesson. This is especially important for Firefighter I in which attendance of all modules is mandated by the State of NJ.

The procedure for make-ups will be as follows:

1. The student shall check the student handout to make sure of the date of the make-up class. For students making up Firefighter I classes, a copy of the semester schedule is provided in this announcement. Students should call 609-407-6743 to verify that class has not been changed.

## TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS

2. When signing the roster that student shall print clearly his or her:
  - a. Full legal name
  - b. Fire Department/Company represented
  - c. Course number of the original class
  - d. Signature

### **DRESS CODES**

#### **BEARDS & SELF-CONTAINED BREATHING APPARATUS**

In accordance with N.F.P.A. 1500: 5-3.10, "Standard on Fire Department Occupational Safety and Health Program", and OSHA 29 CFR 1910.134, the Atlantic County Fire Training Center policy prohibits training individuals with facial hair that interferes with the face piece seal on positive pressure self-contained breathing apparatus in those courses where S.C.B.A. must be worn. Those students with beards, or such facial hair **that does** interfere with the face-to-face piece seal may **not** participate in some blocks of instruction and, therefore, cannot be given credit toward completion of those courses

#### **PERSONAL PROTECTIVE EQUIPMENT**

Many of the courses offered at the ACFTC require each student to actively participate in actual firefighting evolutions, (live fire burns, and other practical evolutions). Each student involved in these training areas must provide and wear their own personal protective equipment (PPE). Except for flashover training, the academy cannot loan firefighters PPE to those improperly prepared. PPE shall include the complete and proper wearing of: approved boots, turnout coat and pants, leather gloves, helmet and eye protection, and Nomex or PBI hood. All of this equipment must meet the NJ PEOSHA PPE requirements for firefighters.

The wearing of jewelry by students to class is discouraged. Jewelry that can be removed must be removed and secured by the student prior to participating in outdoor activities. The ACFTC will not be responsible for lost jewelry.

#### **SCBA USE**

In all courses/classes requiring the use of SCBA, it shall be the student's responsibility to bring a full spare cylinder with each SCBA. Please make sure that the SCBA and Cylinders are **MARKED** with your Department/Company identification prior to use at the ACFTC. All SCBA used must be properly hydrostatically tested. Any unit failing inspection will not be permitted to be used and the student will not be permitted to participate and will not be given credit for the class.

## **TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

All students participating in training that puts them in an IDLH atmosphere must provide a signed **SCBA Face Fit Certification Form** by their fire chief and bring it to the start of the course they are participating in. The Student Certification part of the form will be filled out prior to the start of the class in front of the lead instructor. A copy of the form is available in the back of this course announcement.

### **CERTIFICATE OF INSURANCE**

Each participating Department/Company must have current proof of liability and workmen's compensation insurance and indemnification on file at the ACFTC. Certificates can be sent to Director of Training, ACFTC, 5033 English Creek Avenue, Egg Harbor Township, NJ 08234-5743.

### **FINANCIAL RESPONSIBILITY FOR MEDICAL TREATMENT**

Any payment for any and all medical related charges will be the responsibility of the sponsoring organization or the student's fire department.

### **OTHER SEMINAR OFFERINGS**

From time to time other seminars will be offered that are not listed in this bulletin. You will be notified by the Academy as to the dates and times as they become available.

### **FIREFIGHTER I: RULES AND REGULATIONS**

1. All evening classes start promptly on time at 7:00 p.m. All daytime classes start promptly at 8:30 a.m., unless otherwise specified.
2. Students will not leave class or drills prior to being dismissed.
3. All turnout gear must fit properly, be free of rips and tears, and be PEOSHA approved as per P.L. 1983. Your gear will be inspected by your instructors for compliance.
4. Beards or excessive facial hair are not permitted. Anyone having such will not be permitted to participate in SCBA, smoke house, or live fire training and thus will not meet the requirements to graduate Firefighter I.
5. All classes are mandatory. You must attend all or produce proof that you previously attended one. **NO EXCEPTIONS.**
6. In order to graduate Firefighter 1, you must make all classes and drills. If you miss any, you will have two years to make them up before you can graduate.

**TRAINING ANNOUNCEMENT FOR FALL 2010**  
**ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

7. Any student missing more than ten classes in one semester will not be eligible to take the final exam and must repeat the course. Any Student missing SCBA Drill II or HNA Drill II will not be able to attend the live burn.
8. All radio receivers and pagers shall be in the "off" position during class.
9. Students are responsible for maintaining any books, equipment, apparatus, or buildings made available for their use.
10. All students must be prepared for class and have any homework assignments completed.
11. Students are required to police the classroom and training grounds at the end of each training session. These facilities must be left the way they were found.
12. Students must receive a 70% passing grade on final examination. Any student, who fails the State exam, will have an opportunity to take a make-up. The scheduling for such exam will be at the discretion of the NJ Division of Fire Safety through petition from ACFA.
13. Any student who has a learning disability is to notify one of the instructors of such, so arrangements can be made for testing.
14. There is to be absolutely no horseplay or disturbances in class or on the training grounds as this could lead to unsafe conditions and injury or possible dismissal from course.
15. Injuries of any nature incurred during training, either during class or on the drill-field, must be reported immediately to the Lead Instructor in charge or his staff. Accordingly, the respective Fire Chief will be notified.
16. Students will come dressed properly for class and training. All students are required to wear their golf shirts given to them on the first night in the classroom along with dark blue pants and dark shoes.
17. No tobacco products will be permitted in any buildings and may be used only in areas designated by the instructors on the drill field.
18. Students must have a copy of their Municipalities Insurance Coverage on file with the Atlantic County Fire Academy.
19. If anyone is suspected of being under the influence of alcohol or drugs, they will be removed from the classroom or training evolution.
20. No sleeping will be permitted during class. If you sleep, you will be required to make-up the class.
21. All students are to be familiar with the training sites, emergency exits, and the emergency evacuation signal during any hands on training.

**SCBA COMPETENCY**

**Course #: SCBA COMP-F10**

The most important piece of equipment that we use when we fight interior fires is the air pack on our back. Do you really know how to use it? Have you ever taken it off and put it back on during fire and smoke conditions? Can you remove it to free yourself or fit through a small area? This class will teach you these concepts and more under simulated conditions. Students will have a chance to practice at individual stations apply these new concepts during their turn in the new SCBA Maze. **THIS CLASS IS A PREREQUISITE FOR THE RIT CLASS.**

**PREREQUISITE: Firefighter Level I or 5 years experience in an organized fire department.**

# TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS

## RAPID INTERVENTION TEAMS

Course # RIT-F10

Whether you call it RIT, RIC, FAST, FAT, RAT, they all mean the same basic concept. A specialized group of trained firefighters assembled for the purpose of providing rescue to trapped firefighters if the need arises at an emergency incident. No matter what they are called, rapid intervention teams must be an integral part of any emergency response organization.

This course will provide emergency response organizations with the tools to develop or enhance their rapid intervention team programs. Through a nationally recognized program, students will be taught why the need for rapid intervention, Codes and Standards, Operational Concepts, Deployment, Self-Rescue, Interior Rescue Evolutions, Exterior Rescue Evolutions & MayDay operations. Each student will participate in several hands-on evolutions. **This course meets the proposed regulations of the NJDFS for RIC Awareness & Operations.**

ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

**FLASHOVER AWARENESS**

**Course # FOS \* F-10**

*(insert date in space, e.g. FOS-9-13-F10)*

The Atlantic County Fire Academy is excited to be able to deliver one of the premier training experiences that provides firefighters with the best live fire training program currently available to the fire service.

The Simulator known as the "Can" is a laboratory, designed to provide firefighters with a safe and secure system to recognize the signs of a flashover. The burning of Class "A" combustibles will take place in the burn chamber, located three feet off the ground. Firefighters will be able to witness a fire grow from an incipient stage to flashover conditions. As the combustibles burn, the interior instructors will have the ability to control the conditions inside the simulator through the combined use of ventilation and "pencil of water." It is through this management that firefighters are able to experience a safe observation of a flashover. Students will attend classroom instruction prior to entering the simulator.

Key points of the system include incipient phase of the fire, fire growth, smoke production, high and low pressure zones, thermal feedback, rollover and then, flashover. There will be multiple flashovers (6 - 10) before the fuel load is depleted.

ATLANTIC COUNTY FIRE ACADEMY PROGRAMS**

**SIZING UP THE INCIDENT**

**Course # SzSm-F10**

**Size-up Factors and Reading the Smoke**

“A picture is worth a thousand words.”

The initial report and scene size up should paint this picture for all responding units without using a thousand words. Every emergency scene requires a size up, the fire ground, EMS scene and the hazardous materials incident.

How is this done?

Answer: With as comprehensive of an on-scene report as possible.

Saturday: The class will cover the various components of the scene size up and to what level each factor can or will impact an incident. Giving the students the tools to paint an accurate and compressive picture. There are 3 areas that need to be covered by the initial unit to arrive at the scene to obtain this graphic picture.

1. What have I got?
2. Where is it going and what can I do about it?
3. What do I need?

Friday Night: The Reading Smoke component is designed to teach students how to predict the path of the fire based on the observed smoke conditions. The smoke conditions demonstrated include: color, velocity, pressure, volume and how each of these relates to specific fire conditions. With the basics established, the class then uses a case study method to review many multi-media videos and pictures to present sights and sounds from actual fires. The students will be able to apply lessons learned in class and confidently predict the movement of the fire based on what the smoke is showing.

Both segments of the class will highlight the evolving scene dynamics of the fire ground and the need for the continual size up process.

# TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS

## Emergency Vehicle Operations

Course #: EVO - F10

In conjunction with the Volunteer Firemen's Insurance Services (VFIS), the instructors of the Atlantic County Fire Academy have been trained to deliver a two day defensive driving course for emergency vehicle operators. The course will be offered to any fire or EMS company/department who wishes to have their personnel trained. The academy instructors will come to your station to teach the classroom portion or you can come to the fire academy. After the classroom portion, a schedule will set up a schedule for your personnel to maneuver the practical course at the fire academy using **your own apparatus**.

The course will cover operating the vehicle in a safe manner while responding to an emergency situation the first day. The second day will include a practical application through a driving course that offers the operator to practice skills in handling the varied apparatus that they may drive. Each student will receive a student manual and be given a chance to demonstrate the necessary skills needed to safely operate emergency apparatus.

Below class will be run at the fire academy and is open to any students. You can use your apparatus or the academies.

If you wish to schedule on for your fire company, Contact the Atlantic County Fire Academy to set up a schedule.

## Modern Vehicle Extrication Hazards for Fire Departments

Course #: MVEH-F10

Did you know that there are up to 18 airbags in some cars today? Did you know that some electrical systems take 10 minutes to power down, even if you have disconnected the battery? If you did not know the answers, or even if you did, this class will review all the new technologies that are present in recent model cars/trucks/SUVs. The dangers these technologies can have on Fire Department responders performing extrications as well as ways to avoid the dangers are discussed.

The sections in the class include: incident command basics, multiple battery locations, safely identifying and neutralizing seat restraint systems, airbag locations and their firing systems, hybrid vehicle familiarity and cutting techniques needed with the new exotic metals.

**ENGINE COMPANY OPERATIONS**

**Course # ECO-F10**

Engine Company operations covers the 6 basic functions of an engine company, including hose length estimation, the route to the fire, the proper use of water, attack line size & nozzle selection. ECO will emphasize that the engine companies should be focused on three major tactical priorities on the fireground: life safety, extinguishment, and property conservation.

The Engine Company has specific functions & responsibilities it must perform on the fireground. Engine company members have many duties to perform, often at the same time and with limited manpower, many tasks must be accomplished in a coordinated effort using basic principles of operation.

**TOOLS of RESCUE**

*Course # ToR-F10*

Students will receive 8 hours of instruction and **hands-on** use of gas operated power saws, electric power saws, air bags and cutting torches.

The class is divided into 4 separate stations (2 hours at each station):

1- Use of the K-950 saw for forcible entry & rescue: The students will cut through different types of metal materials at stations designed to simulate security devices such as steel roll down doors, storm shutters, chained doors, padlocks & barred windows.

2- Use of the reciprocating saw & grinder: The students will cut through steel, wood & masonry materials at stations designed to simulate forcible entry, accessing areas through collapse debris and cutting into materials to allow access for search probes.

3- Cutting steel with the oxy-acetylene torch system: Students will receive an introduction to cutting steel with an oxy-acetylene torch. The students will cut through different types of heavy steel simulating a search in a collapse structure with steel components and accessing a secured structure for fire attack or RIT operations.

4- Use of the air bag system for rescue: The students will use the air bags to complete rescues at a simulated construction site that has suffered a collapse and has workers entrapped.

# TRAINING ANNOUNCEMENT FOR FALL 2010 ATLANTIC COUNTY FIRE ACADEMY PROGRAMS

## DRILL GROUND INSTRUCTOR

Course #: DGI – F10

**NOTE: General Safety , SCBA/Smokehouse Safety & Live Burn Safety Courses are replaced by Drill Ground Instructor.**

This Course was developed to update the safety training required by NJ Fire Service Instructors. It replaces the General Safety, SCBA/Smokehouse Safety and Live Burn Safety courses and is required for anyone wishing to take the Level I instructor exam.

The intent of this course is to ensure that instructors know and understand the safety issues inherent in each of the subject areas of firefighting training. Instructors must be capable of demonstrating the proper methods of identifying and correcting an unsafe situation as it occurs. Instructors must also demonstrate knowledge of equipment and apparatus maintenance procedures since well-maintained equipment is necessary to do the job safely and effectively.

The SCBA part of this course will provide the student with a basic understanding of the SCBA smoke house safety concerns for the Fire Service Instructor activities and student performance. The student will know and understand that safety issues inherent in SCBA recruit firefighter training.

The Live burn part will provide the student with a basic understanding of live burn instructional safety concerns for the Fire Service Instructor activities and student performance. Plus ensure that instructors know and understand the issues inherent in live burn recruit firefighter training.

Furthermore, any Firefighter or Fire Officer in Atlantic County who wishes to become an Instructor with the Atlantic County Fire Academy or a Qualified Training Officer, Qualified Safety Officer, or Organizational Duty Instructor within his or her own fire department for the purpose of using the Atlantic County Fire Training Center must have attended this course
